Key to Database Fields - Definitions

US HP2010 Fields
The information in these database fields was downloaded from the HP2010 data website. They have not been modified, and contain strictly what information was downloaded.

Obj Num
       Objective Number. Begins with the focus area number, then gives the objective number, and sub-objective (if applicable)

Category
       Many of the focus areas have grouped objectives into various categories. They differ depending on the focus area, thus the rather generic term, "category."

Objective
       This is the short title text for the HP2010 objective.

2010 US Target
       The US target value for the year 2010.

Utah-Specific Fields
The following database fields were added to the original HP2010 fields to store information provided by UDOH programs.

Pop Cat (Population Category)
- Main ("Main" refers to the entire Utah population, as defined by the measure.)
- Sub1, Sub2, etc. (specify sub-population, e.g., Hispanic persons, low-income households, persons without health insurance coverage, adolescents, GLB, single parents, etc.).

Population Description
       Short text description of the subpopulation listed in Pop Cat sub1, sub2, etc.

Lead Agency
       UDOH Division and Bureau/Program - entity responsible for making decisions regarding HP2010 tracking and priorities. The following abbreviations are used in the UDOH HP2010 priorities document.

CFHS	Community and Family Health Services
CFHS (Arthritis)	Arthritis Program
CFHS (Cancer)	Cancer Prevention and Control
CFHS (CSHCN)	Children With Special Health Care Needs
CFHS (CVH)	Cardiovascular Health Program
CFHS (DCP)	Diabetes Prevention and Control Program
CFHS (HlthP't'n)	Health Promotion
CFHS (IM)	Immunization Program
CFHS (MCH)	Bureau of Maternal and Child Health

CFHS (Oral)   Oral Health Program
CFHS (RHP)   Reproductive Health Program
CFHS (Tobacco) Tobacco Prevention and Control Program
CFHS (VIPP)   Violence and Injury Prevention Program
CFHS (USCHPA)   Workplace Wellness initiative, Health Promotion
EDO   Executive Director's Office
EDO (PIO)   Public Information Officer
ELS (EEP)   Environmental Epidemiology Program
ELS (Epi)   Office of Epidemiology
ELS (FSEH)   Food Safety and Environmental Health
ELS (HIV)   HIV/AIDS Surveillance Program
ELS (SP)   Disease and Outbreak Management (formerly Surveillance Program)
ELS (STD)   STD Control Program
HCF   UDOH Division of Health Care Financing (Medicaid)
disparity   UDOH Div of Hlth Systems Improvement, Disparity Reduction Initiative
SOE   Utah State Office of Education
DHS   Utah Department of Human Services

Level of Interest
- UDOH: Department wide interest. Use this level if you know that the issue is a department-level priority, if you want the measure to appear in the Utah Public Health Outcome Measures Report.
- D/P: Division or program level interest, but does not rise to department level.
- LHD: Not statewide, but tracked at one or more LHDs
- N: Not a priority at this time

Type of Interest
- S&I: Surveillance and intervention
- S: Surveillance only
- NS: No surveillance planned

Modified?
Was the exact HP2010 measure used, as defined in the HP2010 documentation? Or have you modified the definition to better suit your program needs, or the available data?

Data source to be used.
List the data source, or data source abbreviation. Some of the more commonly-used data sources include:
- Birth (Vital records, birth certificate database)
- Death (Vital records, death certificate database)
- BRFSS (Behavioral Risk Factors Surveillance System household survey)
- HSS (Utah Health Status Survey)
- PRAMS (Pregnancy Risk Assessment and Monitoring System)
- YRBS (Youth Risk Behavior Survey)

- Hospital Inpatient Database
- Hospital Emergency Department Database
- Cancer Registry
- PNSS (Pregnancy Nutrition Surveillance System)
- PedNSS (Pediatric Nutrition Surveillance System)
- NETSS (Registry of Notifiable Disease Cases)
- TIMS (Tuberculosis Information Management System)
- STD-MIS (Registry of sexually transmitted diseases and case management)
- EMS (pre-hospital emergency treatment and transport data)

Utah baseline
What was the year 2000 value for this measure?

Utah target
What is the Utah target for the year 2010?

UT Target Selection - How target was selected
How did the program arrive at the target value? (e.g., 10% improvement, same as US/HP2010, better than the best, expert opinion, etc.)
